Management lives on premises and can offer 24 hour watch if needed. We breed and can offer mare and foal care from foaling to halter breaking and later breaking and training. Our Boarders are in our Unlimited Lesson and Training program very affordable. Pasture to Full board we check on horses multiple times daily and treat all horses like our own. We are a versatility breeder, training and working in multiple disciplines. Hunter / Jumper , Barrels Poles, Western Pleasure and look forward to offering lessons and training to our boarders at affordable prices . We are new to KY but no way new to the Horse World. We came here for the KYQH BIF with our stallion in 2008 and stayed because we feel KY pasture is the best place to raise our stock and retire our lesson horses. Please check we out on face book Kentucky Outlaw Quarter Horse

We pride ourselves on the care of all horses as though they were our own. All horses get looked at daily by the staff, there is a Vet and Farrier on call 24/7. We strive to individualize our borders horses needs. No one here is treated like a horse, rather more like someone's baby. It's all about the HORSE! We offer Riding lessons for the beginner to the advanced for all ages and all disciplines. Use our well schooled safe horses or bring your horse.

Kentucky Outlaw Quarter Horse Info for folks coming to us from out of State

Horse Boarding, Mare and Foal Care, Retirement Horses –and NOW Training and Lessons Available

A little about us - We own and manage a show barn in NY on Long Island, a versatility farm. We have competed successfully on the Regional, National and World level in Halter, Western Pleasure, Hunter under Saddle, Barrels and Poles for 20 years. We have great stock and breeding our x show mares, became our second venture. Our QH Stallion of the Year and Rodeo Champion Verily Six Bugs brought us to KY, to be part of the KYQH BIF program in 2008. We soon realized that this was the perfect environment for our Broodmares. Lush pasture and lots of exercise as well as a place for our Foals to grow up strong, in both body and mind. It also became home for our retired show horses. Its simple pasture is abundant, hay and grain more economical, land less expensive than our tiny Island, and after all KY is Horse Country. Plus a bonus of plenty of Shows and things to do in KY horse and non-horse related.

If you live out of state and our sending your horse to our facility you are welcome to visit anytime. Management lives on premises and can offer 24 hour watch if needed. We breed and can offer mare and foal care from foaling to halter breaking and later on breaking and training. Your retired horses and ours are all treated with the same care and respect as our show horses. They are special to us because of all the great years of dedicated service they have given us.

. We now have the staff and partners to do just what we do on Long Island, Lessons, Leasing and Sales. So along with our broodmares, foals and retired stock we will be bringing in performance horses and other young stock for lessons, lease and sale, similar to what we do in NY. For years our LI NY program paid for all the KY expenses. Now it is becoming more self-sufficient with added boarders and now Lessons, Breaking and Training, Show Teams and Sales. So when you come to visit your mare and foal or retired horse, you can take a lesson or just ride around the farm. Or make KY your yearly vacation with so much to do and see

Like I mentioned KY is Horse Country and this is an important factor to us. We found that so much of the research available for horses and their owners have long been done in KY. They provide our industry with current information and future needs. The UKGERF biannual publication, the [Equine Research & Service Report](#), provides the industry with information from the Department of Veterinary Science, which includes research updates, current investigation information, researcher spotlights and available services. Grains, Hays, Pasture care and the most up to date Veterinary Science for both Broodmare and Foals, Retirement care and the newest ideas and research for the Performance horse is all done in KY. So the folks that grow the hay and the facilities that make the grain have all this knowledge available to them. In KY it makes for better pasture, improved hay and grain quality at lower cost. While trainers, farriers, Veterinarians and the other professionals in KY, benefit from research done in their field with clinics and such all available in KY by these organizations

In addition we are just minutes from Rood and Riddle Hospital. The hospital facility offers a full range of services including surgery, internal medicine, advanced diagnostic imaging, a focused Podiatry Center and

specialized Reproductive Center. The practice also provides ambulatory services for emergencies, preventative care, general reproduction, radiography, medical care and treatment of your horse at your farm or stable.

We have great Vets, farriers and trainers at the farm and are always with your horse while these professionals are working with them this helps to keep you informed, especially important if you live out of state.

Our newest venture, Lessons-Lease- Show Teams and Sales will bring more exposure to the farm and our internship program for advance riders and those going into the Training or Veterinarian Field will be an asset to our care. Always a person around to give a bath, fly spray, groom a horse and extra set of eyes We have found at home in NY ,this is always an asset. A good deal of our students has gone on or now in a program to be trainers, Vet Techs and Veterinarians in NY. We hope to do the same in KY.

When you send us a horse to retire you also gain a new vacation spot to visit. So make it work for you

Visit as often as you want. Visit with your horse, ride one of our horses. Take a lesson or join us in a clinic or a Show. So much to do in KY horse and non- horse related. It is a beautiful place to visit...Shows QH, NBHA, NPBA, Rodeo Events KY Derby, Rolex, Breyer Fest and we are only minute's form the KY Horse Park. Plus Lexington night life and restaurants are the best after a day on the farm or at Horse Shows Things to do Caves, Trails, Zip Line, Water Parks, Camping, Riverboat Rides, Museums, Zoos and Events
